Dear Ben Philipson,

On my visit to New Delhi I met with your Distributor for Curatron 2000 PC and I found it an excellent maser-piece of Digital, Pulsating, Low-frequency Electromagnetic filed. If this equipment had been with any clinical magnet therapy centre, it would have been sold like hot cakes.

I have a few suggestion on this equipment:

1. Independent patient data print - out
2. Accessories for local area effect.

If the above two facilities are incorporated in your equipment, it will be second to none in the market.

Best regards,

Dr. Johnson Pulikottil
